

ARLINGTON RED DEVILS

Marcum Material March 22

Reminders:

- **Spring Break** - 2-hour Early Release Thurs., March 28th. Students return Tues. April 2nd.
- **No School** Monday, April 8th for the Solar Eclipse.
- 4th, 5th, 6th grade Spring Music performance is set for April 9th.
-1:00pm for the school day show and 6:30pm for the evening show
- State Testing for 3rd-6th grade will begin in April. The dates for testing are as follows.

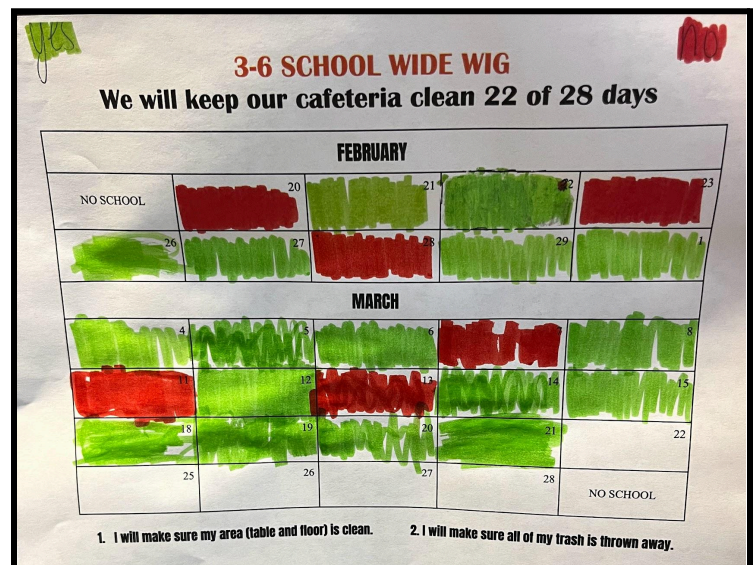

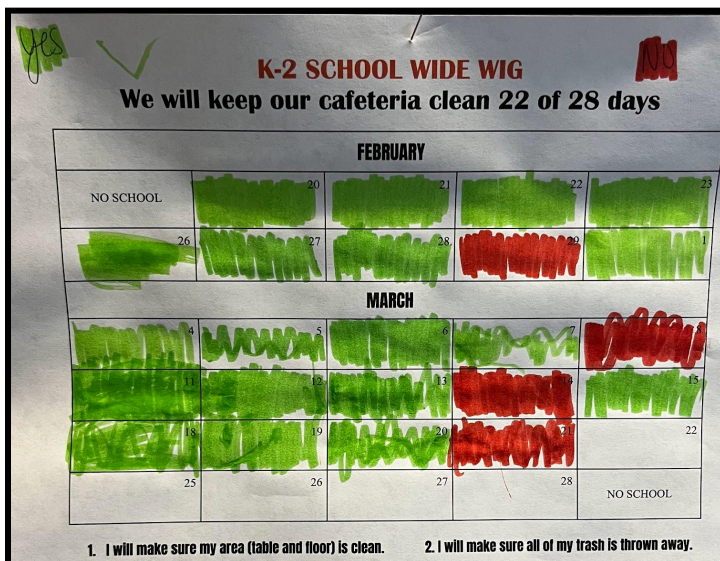

-Wednesday, April 17 & Thursday, April 18 - ELA PART 1/ELA PART 2, Grades 3,4,5,6

-Wednesday, April 24 & Thursday, April 25 - SCIENCE PART 1/ SCIENCE PART 2, Grade 5

-Wednesday, May 1 & Thursday, May 2 - MATH PART 1/MATH PART 2, Grades 3,4,5,6

School Wide WIG:

- Our School Wide WIG, keeping the cafeteria clean 22 of 28 school days, has almost concluded. Students have one more week to achieve their goal! Below are our current results: K-2 have kept the cafeteria clean 15 of 19 school days; 3-6 have kept the cafeteria clean 13 of 19 school days, meaning that they have to keep the cafeteria clean every day through next Thursday to reach their goal! By following the lead measures, making sure their area (table and floor) is clean and making sure all of their trash is thrown away, students can achieve their goal!

ARLINGTON RED DEVILS

Thank you to Imagination Station, Arlington Science Department and Science National Honor Society for the Star Lab planetarium experience and Science Lab Festival. Thank you to many volunteers for assisting through the day. Here are a few pictures of today's events.

LEARN ABOUT

THE ECLIPSE

Did You Know?

Arlington is in the eclipse's narrow path of totality. This means that we see a Total Eclipse of the moon covering the sun instead of a partial eclipse.

Partial Eclipse

Total Eclipse (What we see)

ACTIVITIES

Students from Kindergarten to 1st grade will get to experience fun workshops that will teach them all about how the Sun, Moon, and Earth interact. The workshops are scheduled for April 2nd.

Want more activities to do at home? Check this out!

Glasses

You need to wear glasses to watch the Eclipse and can only take them off during totality! For the safety of everyone watching the Eclipse, Arlington School is providing **TWO** pairs of Eclipse glasses for each student. Glasses will be sent home by April 5.

ARLINGTON RED DEVILS

Another Way To Watch

Make sure your back is facing the sun and hold the colander about 20" above the ground. As the sun shines through the holes, you will see a projection of multiple images of the sun that correspond to the current eclipse phase.

When is this happening? ● ◐ ◑ ◒ ◓ ◔ ◕ ◖ ◗ ◘ ◙ ◚ ◛

The Eclipse's partial will begin at 2:40 PM. At 3:10PM the total eclipse will begin and the sky will darken as if it were dawn or dusk. The totality will last nearly 4 minutes, until 3:14 PM. The partial eclipse will be over at 4:26 PM.

What To Look For

There are many parts of the Total Eclipse, but what you'll really want to look at is the Diamond Ring Effect that the Eclipse creates. When you look at the Sun's corona, you are actually seeing the outer layer of the Sun! Bailey's beads are created from the moon not being a perfect circle.

Did You Know?

- There will be no school on Monday, April 8.
- You need a specialized eclipse filter between your smartphone camera and the sun to safely capture the eclipse.
- You can expect the temperature to drop about 10 degrees Fahrenheit during the total eclipse.
- This is a once-and-a-lifetime event; the next total solar eclipse that will cross Ohio will be in the year 2099.
