Meet Miss Alyssa

There are several new staff members at Arlington this year. Among them is our new Mental Health Therapist, Alyssa Corbin. You can call her Miss Alyssa. A 2011 graduate of Arlington, Alyssa attended The Ohio State University where she pursued her master's in social work.

"I have always had a passion since I was young for helping others see their potential and self-worth," said Alyssa. "I have endured my own struggles and traumatic experiences as a child, and this led me to pursue my career in therapy."

Miss Alyssa offers support and therapy services for a variety of concerns and symptoms. Some of these include but are not limited to anxiety, OCD, depression, Autism, ADHD, PTSD/trauma exposure, eating disorders, self-harm, anger, and substance use.

Miss Alyssa's office is between the high school and the elementary libraries. "If anyone has questions about whether I can support them/their need, please let me or Mrs. Thompson know."

Anything else you want to share with the students?

"I am SO excited to be back here and working in the school and hope I can make a difference this year and in many years to come!"

Fun Facts

- She lives in Arlington with two young boys.
- She attends kickboxing classes.
- She has a baby on the way!

Joke Corner

Q: Why did the football go back to the bank?
A: To get his quarter back.
